I'm not robot!

Ocala Honor Flight

February 22, 2012

Dear Members of Our Community:

We committee members would like to recognize and thank you for your donation and support to make the fifth and final 2012 flight a reality. Without people like you committed to making it happen, many of these WWII veterans would never be able to visit their memorial.

America felt it was important to build the World War II Memorial in Washington DC; *Ocala Honor Flight* believes it is equally important that the veterans visit and experience their memorial before this generation passes away.

Thank you for your patriotic spirit and for supporting *Ocala Honor Flight*.

Sincerely,

Trey Adams

Farewell

please join us for a potluck lunch honoring

Meg Whiting

Friday, August 28th

12:00 PM

as we wish her well on her

new job as full-time mom

If you would like to participate, there will be a sign up sheet with Lisa

Friend function cpp. Friend function c++ example. Friend function in template class c++. Friend function in c++ pdf.

Templates must be declared before they are used. A friend declaration constitutes a use of the template, not a declaration of the template. A true template declaration must precede the friend declaration. For example, when the compilation system attempts to link the produced object file for the following example, it generates an undefined error for the operator
