Vitamin C is a water-soluble vitamin that can be easily downloaded from the body through urination when it is not necessary. As the vitamin C is crucial in the detoxification of the body, the lack of vitamin C can compromise the immune system and make a more susceptible to diseases and infections. Vitamin C can also increase the levels of nitric oxide, a compound that widens the blood vessels and, in turn, lowers blood pressure. Individuals with insufficient vitamin C can find that it takes more time than usual to recover from a cold or physical injury. ... view.php? ID = 16802 & amp.
